

Western States Wildland Urban Interface (WUI) Grant Program (formerly **SFA**) focuses on hazard fuel reduction, information and education, and community and homeowner action and is available to homeowner groups and others. This portion of the National Fire Plan was developed to assist interface communities manage the unique hazards they find around them. Long-term solutions to interface challenges require informing and educating people who live in these areas about what they and their local organizations can do to mitigate these hazards.

Applications for the Western States Wildland Urban Interface Grant Program **are now being accepted for Fiscal Year 2009**. The application form and instructions are still available at the links shown below for reference purposes.

During the application period the Division requires a paper copy of the proposal and an e-mail attachment in MS Word format.

Questions about the grant can be sent to the following:
